Gold Ore Worth Over \$1,600 Per Ton Just Encountered.

CAME FROM NO. 4 IN TUNNEL

Park valley that took the operators of that camp who heard of it yesterday afternoon clear off their feet, and rejoicing among them was not of a tame order. Wednesday night's train brought a ten-pound box of samples from Will Clark, the foreman, and on Friday President W. H. Dodge submitted them to the assayer. The lot mitted them to the assayer. The lot was ground up and in the evening a certificate was submitted that showed the ore to contain 5.5 ounces silver and | Engineer Johnson Speaks Favorably \$0.5 ounces gold, which gave the rock

a market value of \$1,663.93 per ton.

The result staggered Mr. Dodge and he refused to believe other than that a nistake had been made, and he was only convinced after a check assay was nuade yesterday that confirmed the first returns.

The strike, which is considered the rost important that has been made in the district for a long time, occurred in the date of the drift being run east on the No. 4 ledge encountered in the working tunnel, about 500 feet from its mouth and rearly 100 feet from the main avenue. The foreman said the ore made is appearance directly beneath a layer of slate on the hanging wall side of the ledge and remarked that there was lots of it if it proved of any account. Further than that no details have yet been received.

William Dix, one of the heavy shareholders in the company and the locator of the ground, which is now controlled by W. B. Dodge and E. H. Airis, said the same ledge at a distance of sixty and an Assistant Todge.

by W. B. Dodge and E. H. Airis, said the same ledge at a distance of sixty fet from the surface gave assays running up to \$124 in gold, and he had no doubt that the ore just struck was from the same chute opened above. The ore is described as a sylvanite, carrying chlorides and pronounced by Colorado miners to be very similar to the ores of that character in the Cripple Creek district.

Former Manager Dix declares that Former Manager Dix declares that rich as this vein may prove to be, another 190 feet in the tunne will carry the face into a ledge that will discount it both in size and the average values of the ore it will be found to contain, an assertion that he makes from knowledge of what all the ledges showed in the surface workings.

The El Amigo is located about midway between the Planetary and Century mines, it is joined by the Great Bufalo on the west, with the Gold Standard and other well-known properties as comfortably close neighbors

The El Amigo is located about midway between the Planetary and Century mines. It is joined by the Great Budalo on the west, with the Gold Standard and other well-known properties as comfortably close neighbors.

The Golden Head Mining company, which will operate in Wasatch county, has filed articles of incorporation in the office of the county clerk. The erties as comfortably close neighbors. and the discovery will tend to make them all get a hustle on themselves.

NO COMPROMISE.

Daly-West-Quincy Sides Name Their Chief Experts.

Chief Experts.

James Farrell, president and manager of the Quincy company, returned from a trip into one of the southern counties yesterday just in time to read of a big consolidation scheme that included the Anchor, Daly-West and Quincy, that he was reported to have been arranging over in Jalifornia. It surprised him just as it did Manager Eamberger of the Daly-West, who declares that there was absolutely nothing in it—that he knew nothing about it other than what he had read.

ing in it—that he knew nothing about it other than what he had read. In the meantime arrangements are going steadily forward for the battle that will soon be on, and that it is to be no child's piay is indicated by the talent being called in on either side. Manager Bamberger says he is not figuring so much on the number as the ability of the experts, who will make the case of the Daly-West, and he clinched the statement with the announcement that the Daiy-West's expert array would include George H.

aft. Nichols was the original locator of the Gold Blossom property, situated above his present locations and from which sone very fine ore was taken several years ago. It was discovered, however, that there was no well-defined ledge in that property and it was finally abandoned. In the Empire and Seen Lilly the new property he is the maily abstacled. In the Empire and Sego Lilly, the new property, he is positive that the vein has been found and he is now banking on that section coming to the front. He promises more news when his tunnel reaches the vein.

ORE TREATMENT PROVIDED.

Manager Freudenthal of the E. & F. Co. Makes Important Contract.

F4 F. Freudonthal, manager of the new E. & S. company's mines in the Bristol district, beyond Pioche, returned from Denver vesterday after-noon, Dueing his obsence Mr. Freunoon. During his obsence Mr. Freudenthal made arrangements with the management of the Nevada Smelting & Refining company, which owns the smelters at Pioche, whereby the new company's ores will be accepted for victor.

company's eres will be accepted for treatment.

The smelting company, while a separate corporation, was formed by the same interests that are in control of the Bristol Copper company, and was organized primarily to treat the ores of that company's mines. It has a 100-ton copper plant that was built to order and furnaces capable of handling 130 tons of sliver-lead ores per day, in addition. The mines of the new company are on the line of railroad that runs between the smelter and the Bristol company's properties, and when the plant goes into commission it will take a Daly-West, 100635.75; 300825.75, seller 3019035.75; 300825.75; 30

With its lot of 124 tons of concentrates finally settled for and the mar CAUSED EXCITEMENT AMONG
PARK VALLEY OPERATORS.

A STRIKE has just been made in the El Amigo company's property at Park valley that took the operators in that camp who heard of it yesterday afternoon clear off their feet.

DUN'S REVIEW OF THE WEEK.

Conditions of Business and Epitome of Failures.

New York, March 2!—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Evidences of forther improvement are numerous. Labor controversies are less threatening, many settlements have been attracted, while others are momentarily anticipated wares youndarily: traffic congestion has subsided until it is possible to deliver.

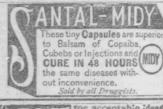

Cle of diet. I keep a box on hand at the office and often lunch on Grape-Nus way. 5.26; 20; December, 5.26; 20; Decembe
